Re: Item No. 4 on SPC meeting 19th November 2019 – All-Ireland Pollinator Plan

Dear Member,

The All-Ireland Pollinator Plan is about everyone working together and contributing to making the landscape more pollinator friendly. The Plan is supported by over 68 governmental and non governmental organisations who have pledged to deliver 81 actions to achieve the goal of making Ireland, North and South, more pollinator friendly.

While other insects play a role, most pollination on the island of Ireland is carried out by bees. Just like us, pollinators need food and a safe place to live. We want pollinators to be there when we need them, but our landscape doesn't provide the abundance and diversity of flowering plants that they need to survive throughout their life cycle. Councils can play a leading role in implementing the Plan by making their land more pollinator friendly.

I am attaching a copy of the Plan for your information.

Yours sincerely,

Mr. Dermot Mahon
Acting Director of Services
Housing, Environment & Climate Change
Recreation & Amenity
