

# TRANSPORT OPERATIONS

## Memo

**Date:** 03<sup>rd</sup> November 2023

**To:** Members of the Transportation Strategic Policy Committee

**From:** Martin Kenny, Administrative Officer, Transport Operations

**Re:** Update on Decarbonisation Objectives (As referred to in Agreed Actions of September meeting)

A Chara,

Please see below the key updates in relation to the Transportation Department's progress on decarbonisation objectives within the framework of the Local Authority Climate Action Plan (LACAP).

(Ref – Mr. Damien Redington, Senior Executive Engineer, Climate Action Team (24/10/23))

### **LA Climate Action Plan**

Pre-draft submissions have been reviewed and the Climate Action Team are working on developing the draft plan and actions at present in conjunction with all GCC depts. A briefing on this was provide to Environment, R&A and Climate action Strategic Policy Committee in October 2023.

### **Transport Decarbonisation**

- Fleet Management Unit are working on a review of all fleet.
- GCC plan to change over from Diesel to Hydrotreated Vegetable Oil over the coming months.
- Roll out of Electric Vehicles will continue in 2024 pending budget approval.
